

VAT Tax Refunds

- ❖ VAT is a European form of sales tax on goods and services ranging from 6% to 25% depending on country and item.
- ❖ VAT is always imposed at the time of transaction. **Recovery is up to you.**

Universal VAT Services (UVS) is a company that is organised specifically to manage VAT recovery. UVS operates on a contingency basis, so there is no financial exposure on your part. They charge a handling fee if the claim is successful. If not, you pay nothing.

France

In France, items on which tax can be refunded are trade shows and conferences, training, consulting & fees and telephone services.
